

CHENEYALLA LADANBE Florand

Cybersecurity Engineer

ACADEMIC TRAINING :

- **2023-2025:** Professional Master in cybersecurity at Center for Cybersecurity and Mathematical Cryptology of University of Bamenda (Cameroon).
- **2020-2023:** First, second and third year in computer science at the University of Dschang (Cameroon).
- **2019-2020:** Scientific baccalaureate series C at the hereditary high school of Habena (N'Djamena-Chad).

SKILLS & EXPERTISE :

- **Operating Systems Administration:** Windows, Linux, and Unix.
- **Cybersecurity Expertise:**
 - Network & Wireless Security | Secure Software Development | web security
 - Cloud Security | Identity & Access Management | Cryptology
 - Penetration Testing | Ethical Hacking | OWASP Top 10 | DevSecOps
 - SIEM & Threat Detection | VPN | Firewall
- **Security & Testing Tool:**
 - Metasploit | Nmap | Wireshark | OpenVAS | Burp suite | Rapid7 InsihVM | Nessus
 - SIEM Solutions: IBM QRadar | Wazuh.
- **Programming Languages:** Python, Java, C, C++, JavaScript and Bash.
- **Database:** PostgreSQL, MySQL, Oracle, MongoDB, and Neo4j.
- **Frameworks:** Django, Laravel, Bootstrap, React and Ionic.
- **Virtualization:** VMware, VirtualBox
- **Cloud and Virtualize:** AWS, Azure.

EXPERIENCES:

- **Cybersecurity Intern at NSIF Yaoundé;** completed a 3-month internship focused on evaluating the security posture of the **IT infrastructure of the National Social Insurance Fund (NSIF)**. Tasks include **performing penetration testing on web servers**, assessing vulnerabilities in network services, analyzing system configurations, implementing risk mitigation measures and drafting detailed technical reports.
- **Remote Intern in Cybersecurity at Hack Secure;** 1-month intensive internship focused on practical cybersecurity skills. Gained hands-on experience in **brute force attacks, SQL injection techniques, web application security testing, and real-time vulnerability assessments**.
- **Participant** at two different CTF (Capture the Flag) and in the CITS24 Regional and National Hackathon Innovation Challenge, and Cameroon International Tech Summit; showcasing skills in problem-solving and teamwork in a competitive environment.
- **Intern at Moov Africa Chad**, where I contributed to the deployment of a network vulnerability assessment using Rapid7 Insight on a CentOS server, gaining practical experience in cybersecurity methodologies and tools.
- **Academic project (4 Practical project Labs) manager** focused on the theme: Penetration Testing and Ethical Hacking | Social Engineering in a Virtual Corporate Network | ICS (Industrial Control System) Security Testing and Demonstration | Digital Forensic (Disk and Memory Image Analysis).

DIPLOMAS AND CERTICATIONS OBTAINED :

- **Fortinet Certified Associate in Cybersecurity**
- **Certificate of Cybersecurity Internship at HACK SECURE**
- **Certified ISO/IEC 27001** from SKILLFRONT
- **Certified ETHICAL HACKER** from CISCO
- **Certified AI/ML PENTESTER** from SecOps Group
- **Certified Network Security Practitioner** from SecOps Group
- **Professional Master Degree in Cybersecurity** awarded in 2025 at the University of Bamenda
- **Certificate of participation** at the Cameroon International Tech Summit in 2024.
- **Internship Certificate** from Moov Africa Chad Compony in 2024.
- **Bachelor's Degree in Computer Science** awarded in 2023 at the University of Dschang.
- **Scientific Baccalaureate, series C**, obtained in 2020.

PROFIL

I'm a Cybersecurity engineer with a professional master's degree from National Higher Polytechnic Institute of the University of Bamenda, Cameroon. Over two years of experience in network security, information security, ethical hacking, penetration testing, cryptography, and system/network administration. Seeking opportunities to apply expertise and contribute to innovative cybersecurity solutions.
