Subject: Application for Business Architect Position

Dear [Hiring Manager's Name],

I am excited to apply for the **Business Architect** position at **HUAWEI**. With a strong background in business strategy, enterprise architecture, and process optimization, I am eager to contribute my expertise to drive strategic alignment and operational efficiency within your organization.

In my previous role at **Millicom – Tigo Chad**, I was responsible for designing and implementing business capability models that streamlined workflows and improved cross-functional collaboration. I worked closely with executives and IT teams to bridge the gap between business objectives and technology solutions, ensuring scalable and efficient enterprise architectures. Also, my experience in recent role as **Senior IN, VAS and MFS Consultant**, I have managed projects such as digital transformation, cloud adoption, agile methodologies, or business process modeling that has enabled me to identify opportunities for innovation and efficiency improvements.

Some key highlights of my experience include:

- Developing and maintaining business architecture frameworks that supported enterprise-wide transformation initiatives.
- Facilitating stakeholder workshops to align business goals with technology roadmaps.
- Implementing process optimizations that led to measurable cost savings and efficiency gains.
- Ensuring compliance and risk management by integrating governance frameworks into business models.

I am confident that my ability to **align business strategies with enterprise capabilities** and my passion for driving transformational change make me a strong fit for this role.

I would welcome the opportunity to further discuss how my skills and experience can contribute to **HUAWEI's** success. Please feel free to contact me at your earliest convenience to schedule a conversation. Thank you for your time and consideration.

Best regards,

VINCENT GUIRYAMBAYE DOBINGAR
